### 2 IN 1 SAFETY CAN OPENER

The Lantana 2 in 1 Safety Can Opener makes light work of opening all kinds of canned foods. Its unique design removes the lid from the can in a way that means no sharp edges whatsoever. So no more risk of painful nicks and cuts while handling sharp can edges. Plus, the can lid fits neatly back onto the can so that you can save spare contents for later!

**PLEASE NOTE** - the operation of this safety tin opener is different to that of regular tin openers so please read through the following instructions carefully before use!

# INSTRUCTIONS

## OPENING CANS

1. Before use, make a half turn of the lever in a backwards direction. This ensures that the opening mechanism is in the unlocked (open) position.
2. Place the can on a flat and even surface, then slot the wheel of the opener over the rim of the can.
3. Begin turning the lever in a forwards direction. As you do this, you will feel the opener lock onto the rim of the can. Continue to turn the lever forwards, the can will rotate as the opener cuts around the rim.

4. When you feel a slight 'jolt' and lesser resistance from the lever, this signals that you have cut around the full rim.
5. Turn the lever a half turn backwards to release the opener from lid.

6. Lift the lid away from the can with your fingers to access can contents.
7. The lid fits neatly back onto the can in case you wish to store can contents for later.

**NOTE** - Due to its clever rim cutting action, the can opener mechanism shouldn't come into contact with the contents of the can - so no need to wash afterwards. If you do wish to clean the unit, please wipe clean with a damp cloth. Not suitable for dishwasher.

# INSTRUCTIONS

## OPENING BOTTLES

1. Place bottle on a sturdy surface and hold it firmly with one hand.
2. Position the steel lip (underneath the head of the opener) under the rim of the bottle cap.
3. Slowly lift the handle, keeping the head of the opener on top of the bottle cap. This motion will lever the bottle cap from the bottle.

## CLEANING

Wipe Clean Only - Not suitable for dishwasher. Do not submerge in water.
